Type – Model	Quantity	Chemical product	UN-number	Class	Manufacturer

- Wood pallet  Was the contained product dangerous goods?
- Plastic pallet   YES
- Hybrid pallet (plastic/metal)   NO

The sender declares that the IBC indicated here above fulfils the following points:

- 1  within technical limits allowed by the packaging's conformation, they are completely emptied, that means free of any solidified and sticky residues, granule free, drop free and closed, or
  - are rinsed-out and drop free or
  - are product free (e.g. because the product was contained in an in-liner, which has been taken away) and closed.
- \* \* \*
- 2 were not contaminated by products, different from the ones mentioned above.
- 3 carry labels corresponding to the last products contained and to transport laws in force.
- 4 before giving-back, the IBC's have been neutralized, are free of products and/or smells.
- 5 on the base of their general condition, they are reconditionable (that means also that the cage and the pallet should not be irreparably damaged, the container and each accessory are not tampered, generally the IBC does not present a state of advanced deterioration.

The sender confirms that the receiver keeps the right of:

- returning to the sender – on sender's cost - IBCs (included the freights of picking-up and returning back) if they do not fulfil the above-mentioned conditions, or
- issuing an invoice about eventual costs borne for the recycling of liquid residues contained in the IBC's or similars.
- issuing an invoice about eventual costs borne for the recycling of the IBC's, in case of product's content, that can not be eliminated.
- charging freightages for eventual failed picking-up.

The recollect service includes IBCs from Greif marked with return forms, as well as other major manufacturers of tubular style cage IBCs.
